

Express Scripts Donates to ThanksUSA

On July 11, 2012, ThanksUSA held its, "Treasure our Troops" Gala in Washington, DC. Express Scripts, who has been a sponsor for many years, donated \$10,000 to this worthwhile organization.

ThanksUSA is a non-partisan, charitable organization founded in 2005 by two young girls, Rachel, now 17 years old and Kelsi, 15 years of age, who felt a strong need to "thank" the troops through contributions and activities.

After speaking with their parents and researching what programs are available to troops and their families, the girls decided to establish a scholarship program for the children and spouses of American troops using private, corporate and federal funding. This is an amazing accomplishment and an inspiration to everyone.

Express Scripts employees attending the gala included Nancy Gilbride, vice president and general manager, TRICARE® Pharmacy Division and Tom Nowakowski, senior director-TRICARE program management. Nancy remarked, "This organization does impactful work by bringing important educational resources and assistance to so many military families in need."

Tom added, "It was a tremendous honor to be included in the ThanksUSA Gala. What an impressive organization, established by two very ambitious, caring and motivated young women. A true testament to what can be accomplished regardless of your age."
