IMPORTANT NOTICE: A Change to Your Prescription Drug Coverage

Dear TRICARE Beneficiary:

On 30 August 2018, Mefanamic Acid is moving from a preferred drug status to a non-preferred drug status. **This means you have an important decision to make to avoid paying more for your prescription or experiencing an interruption in your treatment.**

Your Options

Please see the enclosed information called “**Options for You and Your Doctor to Consider**” to see a list of preferred alternatives and cost information. Discuss this information with your doctor.

We’re committed to providing you the highest level of service. If you have any questions about your pharmacy benefit or you need help, please visit express-scripts.com/TRICARE or call **877.363.1303**.

Sincerely,

Jay Peloquin, PharmD, BCPS
Director, Clinical Account Management

Options for You and Your Doctor to Consider

On 30 August 2018, Mefanamic Acid is moving from a preferred drug status to a non-preferred drug status. Carefully read the information below to understand your options.

Switch to a preferred drug

Choose a Preferred Drug Listed Below:	Military Treatment Facility	Home Delivery	Retail Pharmacy
	Your cost for a preferred drug (up to a 90-day supply)		
Generic Preferred Drugs: <ul style="list-style-type: none"> • Ibuprofen • Indomethacin • Naproxen • Diclofenac • Celecoxib • Nabumetone • Diclofenac Sodium-misoprostol 	\$0	\$7	\$33

If you are continuing a non-preferred drug, your doctor may also submit a Medical Necessity (MN) request. If MN is approved, the non-preferred drug will be dispensed to you at the preferred cost share. For more information, you can search for TRICARE-covered drugs and any other restrictions, at express-scripts.com/tricareformulary.
