Peace of Mind Delivered...With Worry-free Fills®

Worry-free Fills® is an automatic prescription refill program from Express Scripts that eliminates one extra thing from your to-do list. With Worry-free Fills®, your prescription is automatically refilled for you. The program helps you simplify your life because it's one less thing you have to remember to do.

The Worry-free Fills® program helps you avoid the risk of running out of maintenance medications. Maintenance medications are those taken regularly to treat chronic conditions such as high blood pressure. It is not intended for medications taken occasionally or as needed, such as antibiotics.

With Worry-free Fills®, Express Scripts will automatically refill maintenance prescriptions and mail them directly to your home. You can have peace of mind knowing you will always have your medication when you need it.

How Worry-free Fills® Work:

- The TRICARE Pharmacy Home Delivery program allows you to receive up to a 90-day supply of your medication delivered to your home.
- Worry-free Fills® can be used for one, some, or all of your maintenance medications.
- After you enroll, Express Scripts calculates your prescription use and the day's supply remaining.
- When it's time for a refill, your prescription will be automatically filled and mailed directly to your home.
- To stay informed of your refill status, Express Scripts will contact you approximately 17 days before beginning to process your next refill(s), allowing you the flexibility to reschedule or cancel your order.
- For added peace of mind, you will be contacted again once your order has shipped.
- When the prescription is out of refills, Express Scripts will contact your doctor for a new prescription.
- There is no additional cost for Worry-free Fills®, and the service can be discontinued at any time.
