

Diabetes Management Program

If you are an APWU Health Plan primary member enrolled in the Cigna/CareAllies Diabetes Disease Management Program and participate as required by the program, you may be eligible for the following incentives for in-network services only:

- \$0 copayment for Formulary generic (Tier 1) drugs from Express Scripts by mail PharmacySM for the specific purpose of lowering your blood sugar.
- \$0 copayment for Formulary blood glucose test strips and lancets, covered on the Express Scripts National Preferred Formulary and filled by Express Scripts by mail PharmacySM.

If you are an APWU Health Plan member who has other primary insurance (i.e., Medicare primary), you do not have to enroll in the Diabetes Disease Management Program. You may be eligible for the following incentives:

- \$0 copayment for Formulary generic (Tier 1) drugs from Express Scripts by mail PharmacySM for the specific purpose of lowering your blood sugar.
- \$0 copayment for Formulary blood glucose test strips and lancets, covered on the Express Scripts National Preferred Formulary and filled by Express Scripts by mail PharmacySM.
