List of Abbreviations

ACA: Affordable Care Act.

E: Drugs that are not covered by your prescription drug benefit. Lower-cost options are available and covered.

M: Maintenance medication – Medications used for long periods to treat chronic conditions, for example, cholesterol-stabilizing or hypertension medications.

PA: Prior authorization – Your doctor is required to provide additional information to determine if the drug will be covered by your prescription drug plan.

QL: Quantity limit – Limits the amount of a medication that will be covered under your prescription drug plan.

SP: Specialty medication – Drugs that are used in the treatment of rare or complex conditions and are typically injected or infused, are high cost, have special delivery and storage requirements, or require close monitoring or care coordination with your doctor.

ST: Step therapy – Requires you to first try a cost-effective medication before the more expensive medication will be covered.
