¹After 2 fills, members must purchase a maintenance medication at Walgreens or Costco or through Express Scripts Pharmacy to receive the best Intel benefit.

(over, please)

Additional Information

- **National Preferred Formulary:** The Plan includes a list of preferred drugs that are either more effective at treating a particular condition than other drugs in the same class, or are as effective as and less costly than similar medications. This list of drugs makes up the Plan's Formulary, which is updated periodically and subject to change. To get the most up-to-date list, go to **express-scripts.com**. Drugs that are excluded from the Plan's Formulary are not covered under the Plan.
- **Intel Maintenance Drug Program, with additional retail options:** You and your covered dependents can order up to a 90-day supply at Walgreens² and Costco pharmacies, as well through home delivery from Express Scripts Pharmacy, **without a penalty**. This feature will help make it easy for you to fill prescriptions for your maintenance medications³ (those drugs you take regularly for ongoing conditions like high blood pressure or high cholesterol) without penalty for up to a 90-day supply.

Your copayment for your 90-day supply will be the same whether you fill your prescriptions through Express Scripts Pharmacy, Walgreens or Costco network pharmacies.

- **Other retail pharmacies:** The first two times you purchase a maintenance drug at a participating retail pharmacy (not including Costco and Walgreens), you'll pay your copay as shown in the chart on side 1. After the second fill, you'll pay an increased cost for the drug if you purchase it anywhere other than Express Scripts Pharmacy, Costco or Walgreens.

You should continue to purchase short-term drugs, such as antibiotics, at any participating retail pharmacy.

- **Specialty drugs:** Specialty drugs are used to treat complex conditions, such as cancer, growth hormone deficiency, hemophilia, hepatitis C, immune deficiency, multiple sclerosis and rheumatoid arthritis. These medications should be ordered through Accredo, an Express Scripts specialty pharmacy, starting with the first fill to avoid higher costs. If you use a pharmacy other than Accredo to purchase specialty medications, you'll be responsible for their full cost.
- **Coverage approval:** Certain medications may require a coverage review to determine whether they meet the plan's coverage requirements. To see whether a medication you take requires review and approval, you can check the enrollment site below or contact Member Services. If you're an existing member, you can log in at express-scripts.com for this information.
- **Brands with generic equivalents:** If you choose to purchase a brand drug when a generic equivalent is available, you'll pay the generic copay plus the cost difference between the brand and the generic drugs.
- **Compound drugs:** Most compound drugs are excluded from coverage.
- **Out-of-Network Claims:** If you fill a covered prescription at a pharmacy that is not in the network, you'll be responsible for 40% coinsurance.

For questions

If you need pricing information to assist in determining which plan you would like to enroll in, visit express-scripts.com/inteloe or contact Member Services.

If you're a first-time visitor to the Express Scripts member website express-scripts.com, please take a moment to register using your member ID number.

²This includes Duane Reade™ pharmacies and any other Walgreens-affiliated pharmacies and all are included in the Maintenance Drug Program network.

³The medications affected by this plan limit may change. To find out whether your medication is affected, log in at express-scripts.com and select Price a Medication in the Prescriptions menu. Then select your medication in the Search menu and view coverage notes on the results page.
