EXPRESS SCRIPTS®

Announcing ***EXCITING NEW CHANGES*** to the Intel Maintenance Drug Program ***INCLUDING ADDITIONAL RETAIL OPTIONS***

We are very pleased to announce that there is a new feature to the Maintenance Drug Program as part of your Intel prescription benefit. Effective January 1, 2015, Intel employees and covered dependants are now able to order up to a 90-day supply at Walgreens[1] and Costco pharmacies as well as the Express Scripts Pharmacy℠, without a penalty. This new feature will make it easy for you to fill prescriptions for your maintenance medications[2] (those drugs you take regularly for ongoing conditions like high blood pressure or high cholesterol) without penalty and up to a 90-day supply.

Your copayment/coinsurance for your 90-day supply will be the same whether you fill your prescriptions through Express Scripts home delivery pharmacy services, Walgreens or Costco network pharmacy.

New cards will be mailed to you and you should receive by the end of December that will have the Costco and Walgreens logo on them. However, if you don't receive your card your existing card will continue to work.

Important notes:

- Specialty medications (drugs that are used to treat complex conditions, such as cancer, growth hormone deficiency, hemophilia, hepatitis C, immune deficiency, multiple sclerosis, and rheumatoid arthritis) will continue to only be covered when ordered through Accredo Health Group, Inc., an Express Scripts specialty pharmacy. If you use a pharmacy other than Accredo to purchase specialty medications, you will be responsible for their full cost.
- Certain controlled substances may not be allowable by law to dispense a 90-day supply.
- If you are in the HDHP you will still be responsible for meeting your deductible prior to paying your coinsurance.

Member Services: **800.899.2713**
Member Website: **Express-Scripts.com**
Open Enrollment Website: **Express-Scripts.com/inteloe**

[1] This includes Duane Reade™ pharmacies and any other Walgreens affiliated pharmacies and all are included in the Maintenance Drug Program network.
[2] The medications affected by this plan limit may change. To find out whether your medication is affected, log in at Express-Scripts.com and select "Price a Medication" in the Manage Prescriptions menu. Then select your medication in the Search menu and click "View coverage notes" on the results page.

You will find answers to some questions you might have on the reverse side.

What do I need to do to get a 90-day supply at Walgreens or Costco?

- Have your doctor provide a prescription to you or to Walgreens or Costco pharmacy for a 90-day of your maintenance medications.
- Pay your home delivery copayment/coinsurance (If your prescription is written for a day supply of 35-90 days).
- If you obtain your medications at the Express Scripts Pharmacy and plan to transition to Walgreens or Costco and are **currently enrolled in the automatic refill (Worry Free Fill) program, be sure to disenroll** by logging on to **Express-Scripts.com** or by calling member services at 800.899.2713.
- You will not be responsible for a penalty for not using home delivery after your second fill of a maintenance medication at Walgreens or Costco.
- If you have an out-of-pocket – all of the dollars you spend for covered medications will apply and once your out-of-pocket is met, Intel will pay 100% of your prescription drug costs for the remainder of the year.*
- You will not receive letters asking you to transition to Home Delivery.

What will happen if my prescription is written for less than a 35-day supply at Walgreens or Costco?

- You will pay your retail copayment/coinsurance.
- You will not be responsible for a penalty for not using home delivery after your second fill of a maintenance medication at Walgreens or Costco.
- You will not receive letters asking you to transition to home delivery.

What will happen if you already fill your prescriptions at the Express Scripts Pharmacy?
It will work just like it does today.

- You can continue just like you are today if you do not want to change.
- There are no new steps and you would continue to use the service exactly as you do today.

What will happen if I don't get my prescriptions at the Express Scripts Pharmacy, Walgreens or Costco?
Going to a participating retail pharmacy other than Walgreens or Costco will work just like those retail pharmacy benefits work today.

- You can get up to a 34-day supply for your retail copay/coinsurance.
- You will pay a higher cost after your second fill of a maintenance medication.
- You will receive periodic letters asking you to fill your maintenance medications at Express Scripts home delivery, Walgreens or Costco.

*If you chose a brand name drug when a generic equivalent is available, you are responsible for the difference in cost between the brand and the generic, those dollars will not accumulate towards your deductible (if applicable) or out-of-pocket maximum. This difference in cost will continue even if the out-of-pocket is met.
