

Prescription Drug Program (Retired, Non-Medicare Members)

The prescription drug plan includes a three-level co-pay structure:

- **Generic Drugs** (Level 1)
- **Formulary Brand Name Drugs** (Level 2)
- **Non-Formulary Brand Name Drugs** (Level 3)

Thirty-day supplies of prescription drugs can be filled at local pharmacies, but maintenance drugs—drugs that can be prescribed for at least 90 days (or up to one year)—can be filled through the **Home Delivery Program** as outlined below.

The Home Delivery Program through Express Scripts allows members the option to receive a three-month supply of their prescription(s) for the cost of only two months by mail.

2019 Prescription (Rx) Co-Pays

Copayment/ Coinsurance for:	Participating Retail Pharmacy (up to a <u>30-day</u> supply)	Home Delivery Pharmacy Services (at least a <u>90-day</u> supply)
Level 1: Generic Drugs	\$5	\$10
Level 2: Formulary Brand Name Drugs	\$35	\$70
Level 3: Non-Formulary Brand Name Drugs	30% of the plan cost or \$50, whichever is greater	30% of the plan cost or \$100, whichever is greater

2019 Specialty Pharmacy Benefit

Medications used to treat severe and/or chronic medical conditions, usually administered by injections or infusion, may qualify members for the Specialty Pharmacy Benefit.

A representative from *Accredo* will contact members who use Specialty medications; however, members may also call *Accredo* at **(800) 803-2523** for instructions on how to obtain your Specialty medications.

Copayment/ Coinsurance for:	Participating Retail Pharmacy N/A	Accredo (up to <u>30-day</u> supply)
Specialty Medications: Generic*	N/A	20% with a \$150 maximum
Specialty Medications: Formulary*	N/A	20% with a \$200 maximum
Specialty Medications: Non-Formulary*	N/A	25% with a \$300 maximum

*Specialty medications are **not** eligible for the 90-day Home Delivery benefit, nor can they be filled at retail pharmacies.

Please note: Lifestyle prescription medications are available at a discounted rate. *Members* are responsible for the **entire cost** of the drug.
