Set up a Pharmacist Resource Center Account

1. Each person who needs access to the Pharmacist Resource Center Website will need to go to the Pharmacist Resource Center Website at http://www.medco.com/rph and click on the link “Click here to register today link,” found in the “Register today” box on the home page.
2. There are five (5) options for registration: the default registration is setup for an individual pharmacy but there are also options for Chain, Franchise headquarters, and PSAO headquarters, and Superchain. The details of what is needed for each option on behalf of the registering entity are listed in the table below.
3. The registration information is the same for each option; however, certain details in the “Store identification” section will differ based on the option selected. The chart on the left shows the difference in options, the screenshot on the right is the registration page.
4. Once the information has been entered, the user will receive a confirmation message with his/her user ID. The user ID and password are required to access the Express Scripts Pharmacist Resource Center website. Click on “Continue” to use the website.

You will then be directed to the home page.
