# Information About Your Plan – A Deeper Dive

### Important Reminders:

- If you are taking Insulin, regardless of the Tier, you will never pay more than \$25 for a 30 day supply of Insulin.
- If your doctor prescribes less than a full month's supply of certain drugs, you will pay a daily cost-sharing rate based on the actual number of days' supply of the drug you receive.
- You may receive up to a 90-day supply of certain maintenance drugs (medications taken on a long-term basis) through an EDS pharmacy or by mail through Express Scripts® Pharmacy. There is no charge for standard shipping.
- Not all drugs are available at a 90-day supply and not all retail pharmacies offer a 90-day supply.

# Information About Your Plan – A Deeper Dive

Formularies are a list of specific drugs covered by the plan and their costs

### Reasons for formulary change:

- The Food and Drug Administration approves a new medication or existing medication as part of treatment for a new disease category.
- A brand-name medication loses its patent and generic versions become available.
- A medication has been withdrawn from the market for safety reasons.
- A medication becomes available without a prescription (over-the-counter drugs are not typically covered under prescription drug plans).
- You can contact Express Scripts Customer Service for more information regarding formularies and changes.
- Formulary changes only occur in July and January each year. Participants will be notified in advance.

# Why has the cost of your medication changed?

There are four possible reasons the cost of your medication changed after Dec. 31:

### The cost of your medication may have changed because:

- Express Scripts has different contracts with drug manufacturers and pharmacies than the previous administrator.
- Each year deductibles start over on Jan. 1.
- You used a pharmacy that isn't in the Express Scripts network.
- Drug prices go up and down, just like the prices of gas or a carton of eggs.

# Accredo Specialty Pharmacy

Personalized patient care for a wide range of complex and chronic conditions

- **Ongoing support** from pharmacists and nurses with specialized training and expertise
- **Individualized counseling** and education
- **Proactive patient monitoring** through regular assessments and touch points
- **Exclusive mobile and online support tools** for patients in specific therapy classes
- **Care coordination** with your entire healthcare team
- **Patient assistance** programs available
- Please note you are **not required** to use Accredo; most specialty medications are available at retail network pharmacies. A network of additional specialty pharmacies is available if you prefer using another specialty pharmacy.
