

New look for Express Scripts, administrator of the HealthSelectSM Prescription Drug Program

The brand change won't affect your coverage or pharmacy benefits.

Express Scripts, administrator of your HealthSelectSM of Texas Prescription Drug Program, is making some minor changes to their brand.

Express Scripts is part of Evernorth and has started updating their brand to reflect the relationship with Evernorth Health Services.

Starting in October and continuing over the next several months, the current Express Scripts logo and colors will change to the Evernorth Health Services logo and colors across their branded materials. Eventually, they will update all plan materials and resources, including the HealthSelectRx.com website and the member portal. In some communications, you'll see both Express Scripts' and Evernorth's name. The Express Scripts name will stay the same, and the updated brand will not change the way you access pharmacy services.

Your plan will continue to be called the HealthSelectSM Prescription Drug Program. The HealthSelect brand, which the Employees Retirement System of Texas developed, reflects that the plan is designed specifically for employees and retirees of Texas agencies and participating Texas higher education institutions.

Will this change affect my current prescriptions?	No , there will be no impact on your current prescriptions.
