

STEP THERAPY POLICY

POLICY: Migraine Medication Step Therapy Policy

Injectable Triptans

- Imitrex® (sumatriptan injection – GlaxoSmithKline, generic)
- Zembrace® SymTouch® (sumatriptan injection – Dr. Reddy's Labs)

Oral Triptans

- Almotriptan tablets (generic to discontinued Axert®)
- Amerge® (naratriptan tablets – GlaxoSmithKline [brand discontinued 7/2022], generic)
- Frova® (frovatriptan tablets – Endo, generic)
- Imitrex® (sumatriptan tablets – GlaxoSmithKline, generic)
- Maxalt® (rizatriptan tablets – Merck, generic)
- Maxalt MLT® (rizatriptan orally disintegrating tablets – Merck, generic)
- Relpax® (eletriptan tablets – Pfizer, generic)
- Treximet® (sumatriptan and naproxen sodium tablets – Pernix, generic)
- Zomig® (zolmitriptan tablets – AstraZeneca [brand discontinued 1/2023], generic)
- zolmitriptan orally disintegrating tablets (generic to discontinued Zomig-ZMT®)

Nasal Medications

- Imitrex® (sumatriptan nasal spray – GlaxoSmithKline, generic)
- Migranal® (dihydroergotamine mesylate nasal spray – Valeant, generic)
- Onzetra® Xsail® (sumatriptan nasal powder – Currax)
- Tosymra® (sumatriptan nasal spray – Promius)
- Trudhesa™ (dihydroergotamine mesylate nasal spray – Impel)
- Zomig® (zolmitriptan nasal spray – AstraZeneca, generic)

REVIEW DATE: 01/29/2025; selected revision 03/12/2025

OVERVIEW

All of the triptan medications, including Treximet (the combination sumatriptan-naproxen sodium agent), are indicated for the **treatment of migraine headache** with or without aura in adults and are not intended to be used as prophylactic migraine therapy or to manage hemiplegic or basilar migraine.¹⁻¹⁴ Only sumatriptan injection is approved for the treatment of cluster headache.¹⁰ Safety and efficacy have not been established for treatment of cluster headache for the oral dosage forms of all triptans.¹⁻⁸ Some of the triptan medications are also indicated for use in children and/or adolescents. Almotriptan is approved for the treatment of migraine headache pain in adolescent patients 12 to 17 years of age with a history of migraine attacks with or without aura usually lasting 4 hours or more (when untreated).⁶ Rizatriptan is approved for the acute treatment of migraine with or without aura in patients ≥ 6 years of age.³ Treximet and zolmitriptan nasal spray are approved for the acute treatment of migraine with or without aura in patients ≥ 12 years of age.^{8,11}

Rizatriptan orally disintegrating tablets and zolmitriptan orally disintegrating tablets offer the convenience of not requiring liquids for oral administration.^{4,5} Treximet offers the convenience of two agents (triptan and non-steroidal anti-inflammatory drug [NSAID]) with pharmacologically different mechanisms of action in one tablet.⁹

This document is confidential and proprietary. Unauthorized use and distribution are prohibited.

Migranal and Trudhesa, ergot alkaloids, are nasal sprays indicated for the **acute treatment of migraine headaches** in adults with or without aura.^{15,16} Migranal and Trudhesa are not intended for the prophylactic therapy of migraine or for the management of hemiplegic or basilar migraine.

POLICY STATEMENT

This program has been developed to encourage the use of a Step 1 Product prior to the use of a Step 2 Product. If the Step Therapy rule is not met for a Step 2 Product at the point of service, coverage will be determined by the Step Therapy criteria below. All approvals are provided for 1 year in duration.

Automation: A patient with a of one Step 1 Product within the 130-day look-back period is excluded from Step Therapy.

Step 1: generic eletriptan tablets, generic naratriptan tablets, generic rizatriptan tablets, generic rizatriptan orally disintegrating tablets, generic sumatriptan tablets, generic sumatriptan nasal spray, generic sumatriptan injection, generic zolmitriptan orally disintegrating tablets, generic zolmitriptan tablets

Step 2: generic almotriptan tablets, Amerge tablets, Frova tablets (brand and generic), Imitrex tablets, Imitrex Nasal Spray, Imitrex Injection, Maxalt tablets, Maxalt MLT, Migranal (brand and generic), Onzetra Xsail, Relpax, Tosymra, Treximet tablets (brand and generic), Trudhesa, Zembrace Symtouch, Zomig tablets, Zomig nasal spray (brand and generic)

CRITERIA

1. If the patient has tried one Step 1 Product, approve a Step 2 Product.
2. No other exceptions are recommended.
